Career Objective

Dedicated Data Analyst skilled in SQL, Python, and BI tools, passionate about transforming raw data into actionable insights. Experienced in designing dashboards and analyzing large datasets to solve real-world business problems. Detail-oriented and analytical thinker, eager to drive data-driven decision-making and contribute to business growth.

Education

Diploma in Computer Science (Ongoing – Final Semester)

Rajshahi Polytechnic Institute, Rajshahi — *CGPA (Current): 3.47/4.00*

Secondary School Certificate (SSC), Science

Jamnagar B.L High School, Natore — *GPA: 5.00/5.00 (2021)*

Technical Skills

- Programming & Database: SQL, Python, MySQL
- Data Visualization: Power BI, Tableau, Metabase
- Tools: Excel (Advanced), Google Sheets
- Core Competencies: Data Cleaning, Data Modeling, Business Analysis, Dashboarding

Projects

Customer Churn Analysis (Exploratory Data Analysis)

- Performed detailed exploratory data analysis (EDA) on customer churn dataset using Python (pandas, matplotlib, seaborn).
- Identified key factors contributing to churn such as tenure, contract type, and payment method.

Sales Dashboard (Power BI)

- Developed an interactive dashboard to analyze sales by region, product, and time.
- Helped business stakeholders identify **top-performing products and high-value customer segments**.

SQL Analysis on 0.9M+ Rows Dataset (SQL)

- Wrote complex SQL queries for **sales trend analysis, customer segmentation, and KPI tracking**.
- Optimized queries that reduced analysis time by 30%.
